Adrian Garcia, Project Manager
SunZia Southwest Transmission Project
c/o EPG, Inc.
4141 N. 32nd Street, Suite 102
Phoenix, AZ 85018

Dear Mr. Garcia:

My Name is Luci and I am 6 years old. My family and I camp in Cascabel a lot. I do not understand why you want to put power lines there. Power lines could hurt a lot of important things.

Power lines could hurt pottery pieces and clues of homes from a long time ago.

Power lines could hurt a lot of special birds and animals that make homes there.

Power line roads would push dirt into our good water.

More roads would also take up more desert space.

Big, heavy cars and trucks driving on new and bigger roads would break plants and animal homes.

It is important to me that you help us protect the San Pedro River valley because it is a desert space. If we do not take care of it, it will disappear forever like the dinosaurs did.

Please put the SunZia power lines by the highway and railroad tracks because those are places that already got ruined. It is better to save the places that are not ruined yet.

Thank you for helping us save the San Pedro River valley.

Sincerely,

Lucia Wert
